Patter And Chatter

By S. L. KISER

Mr. Hot-And-Cold

THE man who doesn't know what he
wants
Is a mighty hard man to please.
One day his wish is for sylvan haunts.
The next he would roam the seas;
Today he may seem to make up his
mind.
Tomorrow he'll be in doubt.
And soon or late you will probably
find
That he's finally down and out.
THE man who yesterday wanted
fame,
But would rather have wealth
today,
Was little of any kind of a game.
That he ever attempts to play,
And the boy who never can quite
decide
Whether Alice or Ruth's the one
Will hardly be happy or satisfied
When the preacher has said, "This
do!"

HOROSCOPE

FRIDAY, SEPTEMBER 3.

THREE planets aid the ambitions of
men and women this day according
to astrologers who find Mer-
cury, the Sun and Saturn all in
strongly benefic aspect. Neptune and
Venus are adverse.
Advertising and publicity of every
sort is well directed, while Mercury
is friendly and there is an especially
good forecast for those who seek ap-
probation from the people.
Political candidates should make
the best possible use of the hours of
the morning when it is probable that
pleasant impression will be easily
made on the public mind.
There is a high road as favorable
to old leaders, who seek to recover
popularity and power.
The aged should benefit during this
time, which is believed to impart
alertness and energy to men and
women.
Miscellaneous concerning the aims
and aspirations of women is fore-
cast by the stars. There may be se-
rious mistakes due to the lack of
understanding, the stars warn.
Marriage problems will be upper-
most in discussions after the begin-
ning of winter when events will focus
attention on human problems.
For the comfort of defeated candi-
dates who seek great national re-
sponsibilities, the prophecy that next
March will present the gravest world
conditions since the end of the war
is made by astrologers.
Rioting and revolution will prevail
in central Europe after a winter of
supreme anxiety, it is prognosticated.
There is to be serious trouble in

QUESTIONS AND ANSWERS

Q. WILL you tell me what the em-
blem on the new dime rep-
resents? N. N. M.
A. The designs on the new dime
are faces. In Rome, this bundle of
rods, having among them an axe with
the blade projecting, was borne be-
fore magistrates as a badge of au-
thority.
Q. Which are considered the
greatest potato producing states? A.
H. R.
A. New York, Michigan, Wiscon-
sin, Minnesota, Pennsylvania and
Maine head the list for potato pro-
duction in the order named.
Q. Was it necessary for the gov-
ernment to advertise for black wal-
nut in order to obtain the needed
gun stocks and airplane materials
during the war? G. L.
A. While the government did ad-
vertise for this wood, this was found
unnecessary. Walnut is not as plen-
tiful as such woods as oak or even
hickory and ash, but it is plentiful
enough to supply the world with an
average annual cut of fifty million
feet of lumber. This production was
maintained for many years prior to
the war, most of the wood going
abroad. Since the war, very little has
been sent out of this country, Ameri-
can industries now consuming wal-
nut at the rate of fifty million feet
a year.
Q. How many men went on the
Lewis and Clark expedition? L. J. C.
A. This expedition went out by
president Jefferson to explore the
Louisiana purchase, had originally
25 members. At St. Louis, 36 men
joined for part of the trip. Of these,
14 were sent back with collections
and reports, but two recruits were
added, making a party of 31 on the
far western march.
Q. Where is alkali seed raised?
A. R. H.
A. Alkali is best known in the
states which border on Canada, al-
though parts of Kentucky, Tennessee
and Missouri are adapted to this
crop. It furnishes a large amount
of pasture and the quality of the hay
is excellent. While it makes a very
suitable hay for horses and cattle, it

AS A DRINK in itself, Ward's Orange-
Crush is irresistibly delicious—an
ideal thirst-quencher.
But that is not all. Did you ever try
an Orange-Crush ice-cream soda?
Here, indeed, is a treat of surpassing
delightfulness!

Simply put a portion of ice-cream in a glass and
pour a bottle of golden, sparkling Orange-Crush
over it—or ask for an Orange-Crush ice-cream

New Hair Growth
After BALDNESS

HAIR GROWN ON MR. BRITAIN'S BALD HEAD BY
INDIANS' MYSTERIOUS HAIR GROWER

My head at the top and back was absolutely bald. The scalp
was aching. An expert said that as he thought the hair roots were
entirely dead, there was no hope of my ever having a new hair growth.
Yet now, at an age over 60, I have a luxuriant growth of soft,
strong, lustrous hair! No trace of baldness. The pictures shown
here are from my photographs.

Indians' Secret of Hair Growth
At a time when I had become discouraged at
trying various hair lotions, tonics, specialists'
treatments, etc., I came across, in my travels, a
"Cherokee Indian" "medicine man" who had an
elixir that he asserted would grow my hair.
Although I had but little faith, I gave it a trial.
To my amazement a light first coat appeared. It developed, day by
day, into a healthy growth, and are long my hair was as profuse as in
my youthful days.
I was astonished and happy in expressing my state of mind.
Obviously, the hair roots had not been dead, but were dormant in
the scalp, awaiting the fertilizing potency of the mysterious pomade.
I repeated the use of the elixir, and soon the hair began to grow in
places where it had been long dead. I developed a healthy growth of
hair, and the elixir, now called Koolha, and later had
the recipe put into practical form by a chemist.
That my own hair growth was permanent has been amply proved.
Many men and women, also children, have reported satisfactory results from Koolha.

How YOU May Grow YOUR Hair

My latest belief is that hair roots rarely die even when
the hair falls out through drought, fever, excessive dryness
or other disorders. I have been told by
experts that often when hair falls out
the roots become imbedded within the
scalp, covered by hard skin, so that they
remain for a time like bulbs or seeds in
a bottle which will grow when fertilized.
Therefore (which contains alkali) and
hair lotions which contain alcohol are
enemies to the hair, as they dry it,
making it brittle. Koolha contains these
elements of nature which give new
vitality to the scalp and hair.
